### Message from the Guest Editors

In this Special Issue, original research articles and review papers on innovative solutions to accelerate energy efficiency in buildings are welcome. Research areas may include (but not limited to) the following:

- Building envelope design and optimization
- Heating, ventilation and air-conditioning system design and operation
- Optimization for building lighting and thermal comfort
- Low-carbon technology for building applications
- Advanced HVAC system control and fault diagnosis
- Building retrofitting for energy performance improvement
- Thermal/cold storage in buildings
- Distributed energy system for buildings.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
