Message from the Guest Editors

In this Special Issue, we expect to gather high-quality articles that address the impact of intelligent connected vehicles on energy, environment, and sustainability.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Travel demand estimation and management;
- Performance and environment of passenger transportation system;
- Decarbonizing the transportation sector and pathways to net-zero emissions;
- Transportation service ticketing and pricing solutions;
- Urban transportation electrification and energy consumption;
- Combination of intelligent connected vehicles and the above topics.

We look forward to receiving your contributions.

Dr. Shaopeng Zhong

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
