

Sustainable Smart Cities: From Technologies and Optimization Problems to Future Trends and Solutions

Guest Editor:

Prof. Dr. Abdellah Chehri

Department of Mathematics and
Computer Science at the Royal
Military College of Canada (RMC),
Kingston, ON K7K 7B4, Canada

Deadline for manuscript
submissions:

closed (15 July 2024)

Message from the Guest Editor

This Special Issue seeks high-quality papers that advance both theoretical knowledge and practical implementations of future technologies in the context of sustainable smart cities.

- The design of AI-based energy-efficient architecture in sustainable smart cities;
- Theoretical analysis of energy management in sustainable smart cities;
- Security and privacy in sustainable smart cities;
- Energy optimization of federated learning in sustainable smart cities;
- Smart mobility solutions for pollution control: the role of intelligent transportation systems;
- Artificial-intelligence-based adaptive control systems for sustainable smart city transportation;
- Green cloud computing and data center networks in smart cities;
- Artificial intelligence trends in intelligent transportation systems for real-time connected and autonomous systems;
- Artificial intelligence techniques for infrastructure monitoring and next-gen smart cities;
- AI-based techniques in modern electric power systems for intelligent energy management;
- Future perspectives of situational awareness algorithms for smart transportation

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and
Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
