Deadline for manuscript submissions:
closed (30 July 2023)

Message from the Guest Editors

Dear Colleagues,

Most manufacturing and service industries are aware of the digital transition need for leveraging their business sustainability and competitiveness. Digital technologies and Industrial Internet of Things (IIoT) already have a relevant role in the actual business intelligence age.

Industry is experiencing unprecedented conditions and challenges related to technology and data availability. Digital, networked, and intelligent technologies provide huge amounts of raw data that allow to create new or modify existing business processes, culture, and customer experiences to meet changing business and market requirements.

In this context, researchers and practitioners are invited to submit original research articles, reviews, and case studies within the following topics and related fields.

Topics: digital transformation; Industry 4.0; intelligent technologies; artificial intelligence; machine learning; big data; simulation technologies; virtual reality; process configuration and control; digital twin; supply chain 5.0.

We look forward to receiving your contributions.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
