Message from the Guest Editors

Dear Colleagues,

This Special Issue aims to elucidate the significance of integrating technology and social media in engineering education, providing a comprehensive understanding of its implications and potential benefits.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following:

- Innovative approaches to integrating technology in engineering education;
- Online collaborative learning and knowledge sharing in engineering education;
- Social media for enhancing student engagement and active learning in engineering courses;
- Digital tools and platforms for project-based learning and design thinking in engineering education;
- Assessment and evaluation of technology-enabled engineering education;
- Ethical and social implications of integrating technology and social media in engineering education.

I/We look forward to receiving your contributions.

Dr. Zoe Kanetaki

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
