Message from the Guest Editors

Dear Colleagues,

The aim of the the 2030 Agenda is to lead the world on the path towards sustainability until 2030 by referring to a set of priority and shared development issues. In the meantime, all the countries of the world have been overwhelmed by the COVID-19 pandemic, which inevitably affected the 17 Sustainable Development Goals (SDGs) to different extents.

In light of the COVID-19 crisis, where are we on the path towards sustainability traced by the 2030 Agenda? Which SDGs were particularly affected by COVID-19? Can they represent an opportunity to respond to the crisis?

The Special Issue aims to collect and promote the dissemination of experiences and research conducted around the world in relation to the thematic focuses identified by the 2030 Agenda. We invite theoretical contributions and empirical research concerning local, national, or international initiatives, focusing on one or more SDGs. We expect to receive a significant number of quality manuscripts that will allow us to reschedule the path towards sustainability in the medium-long term.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
