Message from the Guest Editors

Dear Colleagues,

We invite high-quality empirically rigorous papers addressing sustainable practices in operations management and the supply chain. Potential contributions may include, but should not be limited to, theoretical papers and/or quantitative studies. Papers that provide new empirical evidence from case studies are also welcome. With this in mind, we are looking for theoretical and empirical research able to investigate a variety of lines of inquiry, including:

- Digitalisation for SBM in operations and the supply chain;
- New trends in SBM;
- Supply chain networks for SBM;
- R&D for responsible production and consumption;
- SDGs in operations management and the supply chain;
- Enablers, barriers and outcomes of SBM;
- Public resources for sustainable business transitions;
- Design and development of sustainable products and processes;
- SBM practices in singular contexts (i.e., specific sectors, family firms, SMEs);
- Gender diversity and SBM;
- Work practices for SBM.
