Message from the Guest Editors

Dear Colleagues:

The aim of this Special Issue is to investigate the impacts of environmental sustainability on logistics and supply chain management. The following list provides an illustrative set of topics and paper types suitable for this Special Issue, but it is far from exhaustive.

- Novel approaches for integrating and/or balancing sustainability aspects in decision-making processes from the logistics and supply chain sector;
- Innovative approaches for operations and logistics system analyses with a focus on two- or three-dimensional sustainability;
- Novel approaches for increasing the transparency and/or for reducing greenhouse gas emissions across logistics networks;
- Empirical papers/computational analyses studying the impact of environmental sustainability on logistics and supply chain management;
- Green logistics management;
- Literature reviews on approaches for measuring, managing, and reducing GHG emissions in logistics networks.

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
