### Message from the Guest Editors

The Special Issue on "Climate Change Adaptation for Urban Areas" focuses on the crucial topic of how cities can adapt to the challenges posed by climate change. As urbanization continues to accelerate, cities are becoming increasingly vulnerable to the impacts of climate change, including rising temperatures, extreme weather events, and sea-level rise. This Special Issue aims to explore innovative strategies, policies, and technologies that can help urban areas adapt and build resilience in the face of these challenges.

The articles in this Special Issue cover a wide range of topics related to climate change adaptation in urban areas. They examine the role of urban planning and design in creating climate-resilient cities, including the integration of green infrastructure and sustainable transportation systems. The Special Issue also explores the importance of community engagement and social equity in climate change adaptation efforts, highlighting the need for inclusive approaches that address the needs of all residents.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
