Deadline for manuscript submissions:

**23 September 2024**

### Message from the Guest Editors

Dear Colleagues,

The agri-food industry and agri-food waste have attracted significant attention due to growing concerns about food security and climate change. Numerous efforts are underway to valorize agri-food waste for alternative applications. The valorization of agri-food waste and its applications have been particularly emphasized to promote a circular economy. It is thus critical we determine the environmental and economic prospects of agri-food waste valorization processes and their end-use.

This Special Issue calls for manuscripts on the technoeconomic and environmental prospects of the agri-food industry and agri-food waste management that can inform policymakers and environmental activists of their sustainability. Original research articles and reviews are welcome. Submissions may report experimental results, theoretical analysis, and/or modeling of agri-food industry and agri-food waste management systems that demonstrate their environmental and economic prospects.

We look forward to receiving your contributions.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
