Deadline for manuscript submissions:

**closed (23 September 2024)**

### Message from the Guest Editors

Dear Colleagues,

The agri-food industry and agri-food waste have attracted significant attention due to growing concerns about food security and climate change. Numerous efforts are underway to valorize agri-food waste for alternative applications. The valorization of agri-food waste and its applications have been particularly emphasized to promote a circular economy. It is thus critical we determine the environmental and economic prospects of agri-food waste valorization processes and their end-use.

This Special Issue calls for manuscripts on the technoeconomic and environmental prospects of the agri-food industry and agri-food waste management that can inform policymakers and environmental activists of their sustainability. Original research articles and reviews are welcome. Submissions may report experimental results, theoretical analysis, and/or modeling of agri-food industry and agri-food waste management systems that demonstrate their environmental and economic prospects.

We look forward to receiving your contributions.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
