Deadline for manuscript
submissions:

31 July 2025

Message from the Guest Editor

Dear Colleagues,

This Special Issue focuses on the nexus between traffic safety, sustainability, and transportation operations. The impacts of new and emerging technologies on user mobility, road safety, and congestion management will be further considered. Submissions are encouraged to explore the role of initiatives and practices that support sustainability objectives in traffic operations, traffic safety, and their interactions. Case studies that explore the role of new technologies and sustainable transportation options on traffic safety and transportation management can provide valuable insights on the opportunities and challenges associated with the implementation of novel traffic management techniques and crash reduction strategies as part of the sustainability agenda.

I look forward to receiving your contributions.

Keywords: traffic safety; sustainability; transportation operations; traffic management; vulnerable transportation users; green transportation modes

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
