Message from the Guest Editors

Dear Colleagues,

Changes in living patterns due to COVID-19 have significantly impacted the type and the characteristics of generated waste. The treatment of rapid waste in pursuit of sustainability has emerged as a major concern.

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Policy plan, design, and framework for SWM within the context of the circular economy.
- Technology and its application for SWM.
- Improved method and its application for SWM.
- Environmental impact assessment assessing the environmental consequences of the policy, technology, and the method.
- Field monitoring to four parts with production, consumption, discharge, and disposal on a circular system.
- Country report introducing success stories.
- Additionally, other topics related to the keywords of waste; sustainable management; circular system; recycling and reuse; minimization; environmental assessment; policy and regulations; planning, design, and program; storage; collection; transport and transfer; landfill disposal; economic analysis, etc., are welcome.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
