Deadline for manuscript  
submissions:

**closed (28 June 2023)**

### Message from the Guest Editor

Dear Colleagues,

A year ago, when we announced the first edition of the current Special Issue, the world was rapidly changing due to the coronavirus effect. However, a year later, the world is changing in an unpredictable and unprecedented way with unforeseen consequences. The agri-food supply chain is already at the center of these changes and worldwide studies due to the impending global economic crisis, with the added possibility of a food crisis.

Therefore, this second edition of the current Special Issue is now adapting to the present situation, recruiting papers not only concerning innovation, but also the prospects, challenges and sustainability of the agri-food supply chain, which can provide practical responses to the coming global tsunami. The scientific research concerning all aspects of the food chain are invited for submission, including technologies, new products, consumers' perceptions, socioeconomic and environmental issues of conservation and sustainability, eco-innovation solutions and green transformative pathways in the agri-food sector.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
