Message from the Guest Editors

Dear Colleagues,

I would like to invite you to contribute to this Special Issue of *Sustainability* with three key areas of focus: sustainability accounting (and accountability), management and sustainability, and governance for sustainability. By combining these three areas together, this Special Issue will serve as a critical reference for a multidisciplinary approach to sustainability thinking and practice.

For this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Multiple approaches to sustainability (social and environmental) accounting and accountability including but not limited to sustainability reporting, environmental management accounting tools and practices, and social accounting tools and practices;
- Management for sustainability, for example, management planning and action for implementing sustainable development goals;
- Governance, for example, corporate governance policies and actions for sustainability. Government policy and action for sustainability may also be addressed as a broader governance consideration.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
