submissions:

16 February 2025

Message from the Guest Editors

Dear colleagues,

Water safety is an important social issue and in 2004 the World Health Organization (WHO) introduced water safety plans (WSPs) to identify, manage, and above all prevent contamination risks, with the aim being to provide a useful guide for human health safety and sustainable development.

This Special Issue, entitled “Groundwater Pollution and Water System Safety”, aims to increase awareness on this topic of vital social importance in the scientific world and beyond.

We welcome original research papers and reviews that contribute to innovative methods, theories, and applications that will help us to better understand this topic and contribute to a more sustainable future.

Research areas may include, but are not limited to, the following:

- Contamination of groundwater;
- Correct management of groundwater;
- Innovative methods of groundwater remediation;
- Innovative methods of preventing water quality in areas subject to high urbanization;
- Development of water safety systems

We look forward to receiving your contributions.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
