**closed (27 September 2023)**

### Message from the Guest Editors

Dear Colleagues,

The process industry is an industry based on production through physical and/or chemical changes. Typical examples of process industries include the petroleum and chemical industries. The characteristic of the process industry is that production is mostly carried out under the conditions of high temperatures and high pressure, in flammable, explosive, toxic and harmful environments. The existence of safety loopholes in this areas can will easily have catastrophic consequences for personnel, equipment and the environment.

As a result of these considerations, we are launching a new Special Issue of Sustainability entitled Risk Assessment and Management in the Process Industries. Additionally, we hope that the research findings will help us to highlight the latest advances in the field of risk assessment and management in the process industries and outline possible issues that require further exploration to better provide a solid scientific basis and technological support for global and regional sustainable safety.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
