University, Leeds, UK

Deadline for manuscript  
submissions:

**10 August 2024**

### Message from the Guest Editor

Household food waste is an environmental, social, and economic issue. Drivers of waste include attitudes, social norms, motivations, and socio-demographics. Levers for behavior change involve planning, shopping, storing, cooking, and reusing leftovers. Existing frameworks like the Theory of Planned Behaviour and Motivation Opportunity Ability Model identify these factors. Interventions like awareness campaigns, nudging, and training aim to address these issues, but many lack evidence-based effectiveness. This Special Issue encourages submissions about the promising drivers, food management behaviours and behaviour change interventions. Original research articles and reviews are welcome. Research areas may include, but are not limited to:

Drivers of household food waste, especially the role of goals and values in reducing food waste and novel drivers; Levers of food waste management behaviours (planning, shopping, storing, cooking and leftover reusing); Theoretical frameworks that are employed to identify levers and drivers; Behaviour change interventions such as prompts and tools for households, and awareness campaigns

I look forward to receiving your submissions.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
