Message from the Guest Editor

Dear Colleagues,

This Special Issue will present research findings addressing urban planning policies and experiences that originate from the interplay among environmental, social, and economic factors in a broad sense. A fundamental concept of sustainable development is achieving human development goals while simultaneously maintaining the capacity of natural systems to supply the natural resources and ecosystem services that are essential to human economies and society. The 17 sustainable development goals established by the UNGA address global concerns. The goals would inspire a rethinking of urban development and planning in all nations, taking into account the social, environmental, and economic aspects of sustainable development in mind. Our focus in this Special Issue is to publish articles of scholarly merit on a wide variety of topics and apply a wide variety of methods to urban economics from a sustainable development perspective. This Special Issue encourages the submission of papers that contribute to urban economic development and planning for sustainable development through theoretical and empirical contributions.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
