Deadline for manuscript  
submissions:

**closed (31 December 2023)**

### Message from the Guest Editor

Dear Colleagues,

Sustainable development, environment, and health are the three most vital interrelated research areas in applied economics literature. However, the relationship among these three concepts is complex. To achieve their desired economic growth, countries are rapidly depleting limited natural resources which are being used as inputs to produce goods and services.

This Special Issue will welcome research papers and reviews regarding these three concepts which will perform proper investigation and suggest policy guidelines about the causes and effects in order to improve environmental quality, population health, and ensure sustainable development.

Topics of interest include but are not limited to the following:

- Air quality and climate change;
- Sustainable economic growth and environmental quality;
- Energy use, environmental degradation, and renewable energy provision;
- Clean water, improved sanitation, and health;
- Industrial production, pollution, and health;
- Health impact assessment;
- Transport and health.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
