Jordan

### Message from the Guest Editors

Road traffic crashes are considered a serious and life-threatening problem worldwide, causing an estimated 1.3 million fatalities and between 20 and 50 million injuries per year, according to WHO data in 2019. Road accidents are not limited to motor vehicle drivers, but affect all road users, such as vulnerable road users (i.e., pedestrians, cyclists and motorcyclists and their passengers). In addition, new forms of mobility, such as Personal Mobility Vehicles or Automated and Connected Vehicles, generate conflicts and accidents that represent a new challenge to be investigated.

Deadline for manuscript  
submissions:

**closed (20 October 2023)**

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
