

Management for Sustainable Future: Challenges, Innovations and Organizational Performance

Guest Editor:

Prof. Dr. Walery Okulicz-Kozaryn

Institute of Management and Quality Sciences, Humanitas University, 41-200 Sosnowiec, Poland

Deadline for manuscript submissions:

30 June 2025

Message from the Guest Editor

The goal of this Special Issue is to create a discussion platform for scientists, policymakers, and practitioners in the field of sustainable futures. This discussion platform should become a source of ideas and solutions to help governments improve the management of sustainable development. The scope of this Special Issue may include:

- Innovations in management theory and practice for achieving Sustainable Development Goals from SDG 1 to SDG 17;
- Managing organizational performance in the face of global challenges;
- Integration of artificial intelligence into sustainable future;
- Solutions for organizations in the context of adapting to climate change;
- Sustainability in global supply chain management;
- Corporate social responsibility and sustainable management;
- Scientists' tips for governments for the achievement of national policies for a sustainable future;
- Special topic: how to motivate scientists for the strongest performance (SDG 9.5).

We invite you to contribute to this vital discussion by submitting high-quality conceptual and empirical papers that address these challenges and provide scientifically grounded insights.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
