

Health Effects of Climate Change and Their Socioeconomic Impact

Guest Editors:

Dr. Carola König

College of Engineering, Design & Physical Sciences, Brunel University London, Uxbridge, UB8 3PH, UK

Dr. Dominic Hames

Civil Engineering, University of the West of England, Bristol BS16 1QY, UK

Deadline for manuscript submissions:

closed (13 February 2024)

Message from the Guest Editors

Climate change poses serious challenges for current and future generations globally. Rising temperatures, changing weather patterns, the increased frequency and intensity of extreme weather events and natural hazards, as well as rising sea levels are affecting societies all over the world.

This Special Issue seeks to increase the knowledge and understanding of climate change-related health effects and their impact on society. Therefore, submissions are being sought in the areas of, but not limited to:

- Health effects related to flooding, heat and drought
- Projections of climate-related ill health
- Ecological/environmental impact
- Treatment/mitigation of climate-related ill health
- Economics of treating climate change-related adverse health effects/impact on health systems
- Societal impact on well-being in different cultures

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and
Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
