Message from the Guest Editors

In the actual context, sustainable economic growth, sustainable development goals (SDGs), and circular economy are convergent and complementary issues that, if approached inside an overall strategy, can ensure a much brighter future for human civilization. Our world cannot go only partially to sustainable economic growth and circular economy, with some countries being able to and acting accordingly, whilst other countries cannot, because of different barriers.

The connection between sustainable economic growth and the circular economy manifests through different aspects and components: blue economy, green economy, yellow/attention economy, social and solidarity economy, and respective frugal/innovation economy.

This call expects a wide range of contributions that concern the circular economy, sustainable economic growth, and sustainable development goals.

Keywords

- Circular economy
- Sustainable economic growth
- Recyclable and renewable resources
- Green/Blue economy
- Financing the circular economy
- Sustainable development goals

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
