Deadline for manuscript
submissions:

31 December 2024

Message from the Guest Editor

The Smart Cities concept is evolving toward Sustainable and Resilience Cities in response to the challenges resulting from increasing energy costs and the overpopulation of cities; for example, half of the global population now live in cities—a figure that is expected to rise to 80% by 2050— and > 7 billion people are projected to be living in urban areas, extreme weather events driven by climate change, the mobility of new ecosystems, post-COVID-19 lifestyles and the promotion of remote work, and all of the new investments in the co-existence of digital, virtual, and physical ecosystems.

The development of sustainable infrastructure, with a strong awareness of its impact, is crucial; current buildings account for 30% of global energy consumption and 28% of energy-related carbon emissions. City leaders must act with urgency against a worldwide pandemic, climate crisis, economic uncertainty, and budget constraints to make urban infrastructure more resilient.

an Open Access Journal by MDPI

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
