University of Zielona Góra, ul.
Licealna 9, 65-417 Zielona Góra,
Poland

Deadline for manuscript
submissions:

1 December 2024

Message from the Guest Editors

Dear Colleagues,

We invite you to publish your research findings and scientific discoveries on building renovation and urban and rural revitalization. Sustainability is often defined as "restore, renew, replenish" mindset, and in line with this thought, we encourage research on adapting people's living conditions to meet the requirements of modern civilization. The Special Issue provides a forum for architects, engineers, as well as scientists and practitioners to expand their knowledge, exchange experiences, present the latest developments, and learn about trends in the development and application of sustainable development in architectural, construction, and infrastructure engineering.

Manuscripts containing current research findings and scientific discoveries on the following research topics are encouraged:

- Building renovation in sustainable building development;
- The revitalization of urban and rural areas;
- The adaptation of historic buildings for modern use;
- Damage diagnostics as a basis for renovation investments;
- Renovation problems in building objects;
- Material, construction, and execution issues in repairs and renovations.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
