### Message from the Guest Editors

This Special Issue is a collection of papers that aims to explore a wide range of topics on the impact of heavy metals in the sustainable environment, including (but not limited to) the following:

- (1) An evaluation of heavy metals' mobility in the environment.
- (2) Heavy metal pollution and health risks.
- (3) Risk assessment of heavy metals in the air, water, plants and related soils.
- (4) Environmental sustainability and the prevention of heavy metal pollution.
- (5) Advances in heavy metal remediation: methods, tools and technology.
- (6) Monitoring and the impact of assessment approaches for heavy metals.
- (7) Statistical and environmental modelling of heavy metal pollution.
- (8) Heavy metals' impact on the circular economy.
- (9) Cross-cutting aspects and sustainability.

We are pleased to invite you to contribute your relevant manuscripts to this Special Issue. Both original research papers and reviews are welcome.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
