Message from the Guest Editors

This Special Issue aims to publish high-quality research papers on smart technology for environmental and sustainable development. The theme of this Special Issue is 5G smart technology, environment and sustainability. The focus will be on:

1. Developing an understanding of 5G technology/sustainability within smart regions;
2. Understanding the benefits of smart management;
3. How 5G can make our environment clean and suitable for humans and nature?;
4. Climate hazards and resilience;
5. Quantifying the potential impacts of climate extremes and smart risk management;
6. Sustainable management of the land-water-energy;
7. Net zero energy buildings;
8. Smart management of water resources in the urban region;
9. Environmental impacts and water reuse;
10. Sustainable use and management of natural resources in buildings and in the built environment beyond specific energy saving and efficiency and the use of renewable energies.

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
