

Low-Carbon Economy and Trade and the Sustainable Development of Medium-Sized Urban Agglomeration

Guest Editors:

Prof. Dr. Jiaqiang E

College of Mechanical and Vehicle Engineering, Hunan University, Changsha 410082, China

Dr. Chunhua Wang

School of Energy and Power Engineering, Nanjing University of Aeronautics and Astronautics, Nanjing 210016, China

Deadline for manuscript submissions:

closed (31 January 2024)

Message from the Guest Editors

This Special Issue is dedicated to the most recent advances in the research of low-carbon economics and trade and the sustainable development of medium-sized urban agglomeration. We invite scientists and investigators to contribute original research and review articles, which address the topics of the issue.

Potential topics include, but are not limited to:

- Low-carbon assessment based on life-cycle theory;
- The strategy of low-carbon economics based on life-cycle theory;
- The sustainable development model and its implementation methods;
- A low-carbon trade model based on the synergetic implementation of benefits;
- Urban development sustainability assessment based on multiple perspectives;
- The sustainable management and technology of urban garbage under the goal of "carbon neutrality";
- The sustainable management and development of colleges and universities;
- The theory of sustainable management in the relationship between economy and environment;
- The carbon footprint evolution of economic behavior in medium-sized urban agglomeration;

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
