Deadline for manuscript
submissions:

31 December 2024

Message from the Guest Editor

With the ever-growing urgency to address global environmental challenges, the concept of a sustainable bioeconomy has emerged as a transformative approach to reconciling economic growth with the imperative of ecological conservation. The bioeconomy holds the potential to catalyse a paradigm shift towards sustainable development by harnessing biologically based resources, processes, and principles.

This Special Issue intends to create a diverse and comprehensive compilation of work that not only addresses the critical roles and potentials of the bioeconomy in achieving the SDGs but also scrutinizes the challenges and opportunities that lie ahead. Submissions are encouraged from a wide range of disciplines, including but not limited to environmental science, policy and governance, sustainable resource management, economics, environmental planning, engineering, and social sciences. We welcome original research articles, reviews, brief communications, and perspectives that drive the discourse forward between the bioeconomy and sustainable development.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
