Deadline for manuscript submissions:

**closed (1 May 2023)**

### Message from the Guest Editors

Sustainable transportation is commonly referred to as ‘Green Transportation’, which entails a means of transportation that is safe and has a low impact on the environment and climate. Sustainable transportation makes use of renewable energy rather than coal, petroleum, or other fossil fuels that negatively affect the Earth. Meanwhile, the world is becoming increasingly globalized and connected, with rapidly advancing technologies and changing weather patterns. Critical infrastructures and social structures are threatened by natural and manmade disasters, especially in big cities. These disasters have brought destructive damage to infrastructures and people’s lives all over the world. City-integrated emergency response systems are thus essential. Emergency management is the organization and management of resources and responsibilities in emergencies (preparedness, response, mitigation, and recovery). The aim is to reduce the harmful effects of disasters.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
