### Message from the Guest Editors

Dear Colleagues,

This Special Issue comprises a selection of papers from the 182nd EAAE Seminar on “Sustainability via biodiverse agri-food value chains”, 14–15 September 2022, Chania, Greece.

In a rapidly changing environment where wildfires, desertification and floods, disease outbreaks, increasing trade costs, and food insecurity prevail, new strategies and policies are needed to face these pressing issues. The Farm-to-Fork Strategy aims to reduce these risks and to make food systems fair, healthy, and environmentally friendly by 2030. In addition, technological progress allows for the improved management of the economic, social, and environmental aspects of biodiversity by utilizing resources efficiently, creating new products and services, and securing social inclusion in a timely and low-cost manner.

Both empirical and methodological research papers are equally welcome.

Prof. Dr. Konstadinos Mattas

Dr. George Baourakis

Dr. Stefanos A. Nastis

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
