Message from the Guest Editor

Dear Colleagues,

This Special Issue of *Sustainability* is dedicated to high-level contributions to research and practices that improve sustainability in supply chains and promote green logistics by the reduction in GHG and atmospheric-pollutant emissions, noise, solid and liquid waste, while improving social and humanitarian aspects through balancing economic, environmental, and social factors and encouraging the ESG (environmental, social, and governance) approach. The authors are encouraged to consider, but are not limited to:

- Conceptual innovative discussion that improves the knowledge on green logistics (GL) and sustainable supply chains (SSC);
- Conceptual innovative discussion that places green logistics (GL) and sustainable supply chains (SSC) in the framework of the green economy and circular economy.
- Best practices to reduce GHG emissions in freight transport, warehousing, and purchase order.
- Best practices to reduce atmospheric-pollutant emissions in freight transport and warehousing.
- Best practices to reduce noise, solid, and liquid waste in the supply chain.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
