Deadline for manuscript  
submissions:

**closed (5 April 2024)**

### Message from the Guest Editor

The Special Issue "Innovations in Bioenergy and Sustainable Waste Management" has a primary focus on exploring the latest advancements, strategies and technologies in the fields of bioenergy production and sustainable waste management. It aims to showcase innovative approaches that contribute to the efficient and sustainable utilization of waste resources, while also highlighting the development of bioenergy solutions.

The scope of this Special Issue encompasses a wide range of topics within the realm of bioenergy and sustainable waste management. It includes, but is not limited to, areas such as novel bioenergy production technologies, sustainable waste management strategies, biomass conversion techniques, biogas production and environmental assessments. By encompassing these diverse aspects, the Special Issue will provide a comprehensive overview of the latest developments and emerging trends in these fields.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
