submissions:

closed (30 June 2023)

Message from the Guest Editors

Dear Colleagues:

This Special Issue aims to provide an up-to-date set of information on recent advances in the treatment, recycling, and reuse of agro-industrial residues. We, therefore, encourage the submission of original research articles and reviews concerning (but not limited to):

- Agro-industrial residue characterization and sustainable management;
- The recovery of energy and nutrients, and the synthesis of value-added chemicals from agro-industrial residues (e.g., livestock manure, food processing effluents, dairy by-products, etc.) through biologically mediated technologies;
- The biological treatment and reuse of agro-industrial wastewater;
- The economic and environmental assessment of energy/resource recovery from agro-industrial residues, and discussions of case studies.

Your recent findings on the above-mentioned topics will play an active role in fostering the transition of the agro-industrial sector toward a circular economy-based approach, thus making it more competitive and sustainable.

We look forward to receiving your contributions

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [AGRIS](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (*Geography, Planning and Development*)
