Message from the Guest Editors

This Special Issue is mainly aimed at investigating the effects of new technologies in the tourism context analyzed from the point of view of consumers and/or the tourism industry. Examples of topics for this Special Issue might be new technologies in the tourism context such as big data, Internet of Things (IoT), blockchain, cloud computing, virtual reality, social media, collaborative economy, e-commerce, mobile commerce, mobile payment systems, social commerce, chatbots, robots, voice-activated virtual assistants such as Alexa and Apple Siri, or the role of these technologies in preserving heritage in cultural tourism. Quantitative and qualitative methodologies together with original theoretical contributions are welcome to this Special Issue. Multidisciplinary and interdisciplinary approaches are encouraged in this Special Issue.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
