Message from the Guest Editors

Dear Colleagues,

This Special Issue will collect papers that present both theoretical and empirical studies aimed at supporting integrated regional and urban planning. Authors are expected to contribute through the introduction of novel quantitative approaches to address the aforementioned issues with particular reference to their space-time dimension. Advanced algorithms, platforms, and frameworks to describe, model, and visualize these complex geographical phenomena are especially welcome.

Dr. Federico Amato

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
