Message from the Guest Editors

Dear Colleagues,

In line with the 2030 Agenda for Sustainable Development and its Sustainable Development Goals (SDGs) of the United Nations, a healthy environment is integral to quality of life and healthy lives. The complex intersection of the environment and human health and wellbeing brings many benefits, but also creates challenges for the environment and human health and wellbeing. Environmental education, education for sustainability and health literacy are increasingly emphasized in contributing to health of the environment and humans. In this Special Issue, we will explore and develop these issues through multidisciplinary research and review articles, as well as the challenges in addressing environmental sustainability and healthy lives in local and global contexts. Special emphasis is placed on advances in and innovative contributions to research in the environment–sustainability–education–health nexus. Papers addressing how environmental sustainability and healthy lives around the world are achieved with respect to the ongoing COVID-19 epidemic are welcome.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
