Message from the Guest Editor

Dear Colleagues,

This Special Issue collects a series of papers that address the role that agricultural innovation can play in fostering sustainability. They also explore the role that intellectual property protection can play in fostering green innovation. Increasingly, indigenous and local knowledge are being identified as sources of information to facilitate the adaptation of agriculture to climate change and to facilitate the adoption of environmentally sustainable practices.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
