Message from the Guest Editor

This Special Issue aims to provide a forum for information and discussion on recent advances in the area of renewable energies and small-scale CHP applications, promoting their development and faster dissemination in the agro-industry sector. Articles presenting original results and case studies are particularly encouraged.

Topics of interest include, but are not limited to:

- Renewable sources for agro-industry;
- Cogeneration in the agro-industrial sector;
- Distributed and small-scale energy production;
- Trigenation and polygeneration;
- Integrated multi-source energy systems;
- Assessment of environmental impacts of the agro-industrial sector;
- Innovative solutions to mitigate greenhouse gas emissions;
- Numerical and experimental investigations on small-scale CHP;
- Review and economic studies on energy consumption in agro-industry;
- Case studies and best practices;
- Policy development.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
