Message from the Guest Editor

Design of a robust and sustainable policy design benefits both developed and emerging market economies. This Special Issue aims to publish high-quality applied economic research papers from academia, business, and other stakeholders on topics that include but are not limited to:

- 1) Applying econometric frameworks to understand economic and financial integration at domestic and international level;
- 2) Alternative approaches to model sustainable policies, including but not limited to monetary policy;
- 3) Time-varying impact of economic policies on financial asset markets and the role of economic and financial uncertainties;
- 4) National and international linkages of housing and other asset markets with macroeconomic fundamentals;
- 5) Policies evaluating the impact on real estate investment trusts;
- 6) Using financial market information for understanding macroeconomic dynamics and policy design.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
