Technical University of Košice,  
Vysokoskolska 4, 042 00 Kosice,  
Slovakia

**Dr. Stanislav Darula**

Slovak Academy of Science,  
Bratislava, Slovakia

Deadline for manuscript  
submissions:

**closed (30 September 2021)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue is a great opportunity to publish innovative approaches and research results in the field of architecture, structural engineering, building constructions, building physics, etc. The term is similar to, and sometimes used interchangeably with, responsive architecture, although, adaptive architecture defines an automatic adaptation of the building exposed, and being able to react real-time to different physical influences. The adaptation to the external conditions include the following:

- Automatic shading of buildings and transparent structures against the sunlight effects.
- Shape adaptation of structural elements to the excessive noise load.
- Shape adaptation of the room based on the reverberation time (required for a particular type of musical activity).
- Adaptation of buildings and their structures to the changes in temperature, or humidity.
- Adaptive load-bearing building systems (rearrangement of internal forces under extreme load - fire, explosion).
- Adaptation to weather influences such as wind, rain, or snow, acting upon the building or its structural elements.

an Open Access Journal by MDPI

Applied Science, University of  
Ontario Institute of Technology,  
Oshawa, ON L1G 0C5, Canada

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
