**Dr. Rabab Ali Abumalloh**

Computer Department, Applied College, Imam Abdulrahman Bin Faisal University, P.O. Box 1982, Dammam, Saudi Arabia

Deadline for manuscript submissions:

**closed (31 August 2023)**

### Message from the Guest Editors

Sustainable business management research focuses on the business management practices that protect and sustain the available resources while recognizing that the resources are valuable and limited. This Special Issue welcomes original research on the advances in sustainable business management, including research related to novel artificial intelligence approaches to address the emerging opportunities in the field and new sustainable business models that go beyond the economic dimension to cover environmental and social folds. The submitted studies can cover interdisciplinary and multidisciplinary research topics, including diverse sustainable business management disciplines deployed to address up-to-date obstacles in local, global, and rising economies. Contributions can be made in the broad areas and diverse angles of business theory, organization practices, contemporary management, and governmental strategies that are concentrated on sustainable business. Empirical and theoretical studies that design and propose management solutions in sustainable business using artificial intelligence approaches, supporting environmental, social, and economic prosperity are welcome.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
