Message from the Guest Editors

Stop to land take is a crossover goal in the light of sustainable urban and spatial planning. It is important to put on evidence studies, Researches, Plans and Project for a sustainable spatial development, in the light of future Common strategies, in the World Arena. New elements for a scientific debate are rising from the Global Agreement on Sustainable Development Goals. More in detail, the implementation of Sustainable development goals:

- Sustainable Cities and Communities (SDG 11),
- Climate Action (SDG 13)
- Life on Land (SDG 15)

require a significant contribution by Urban Management. Economies of Cities are often affected by the well-known conflict between nature preservation and urban development. The editors invite researchers, practitioners and academics to contribute to our special issue, telling their experiment, policies, research.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and
Applied Science, University of
Ontario Institute of Technology,
Oshawa, ON L1G 0C5, Canada

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
