28 February 2025

Message from the Guest Editors

Dear Colleagues,

This Special Issue will comprise a selection of papers from the 188th EAAE Seminar on “Reorienting Agri-Food Chains to Hinder Climate Change and Food Security Threats” to be held on 12–13 September 2024, in Chania, Greece. The 188th EAAE Seminar’s objectives are to bring together scholars and researchers in the field, as well as stakeholders from supply chains, that will exchange ideas, practices and research initiatives that cover most of the current food systems, biodiversity, and agri-food chain developments for assisting policy-making decisions in agriculture and the agri-food industry.

In this context, this Special Issue aspires to create a forum for the promotion of food systems’ resilience through biodiverse supply chains in the global agri-food sector. Therefore, both empirical and methodological research papers are equally welcome. Papers selected for this Special Issue will be subjected to a rigorous peer-review process with the aim of a wide dissemination of valuable research results.

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
