**closed (31 October 2023)**

### Message from the Guest Editors

Dear Colleagues,

Water is one of the most valuable resources on earth, and its management is becoming more challenging and complex due to a range of factors including the climate crisis, population growth, novel entities, and unsustainable water management practices. Therefore, this Special Issue aims to present innovative and effective solutions to ensure that the water environment is managed sustainably and equitably.

We welcome original research and review articles that address various aspects of sustainable water management, including, but not limited to, the following:

- Climate change impacts and mitigation;
- Exponential technologies for water management;
- Integrated water resources management;
- Monitoring and modeling of the water environment;
- Stakeholder engagement;
- Water governance;
- Water quality management;
- Water treatment technologies.

We look forward to your contributions.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
