Deadline for manuscript  
submissions:  
**closed (25 October 2023)**

### Message from the Guest Editors

Energy is an essential resource for social operation, and oil and gas are the main types of energy consumed in the world today. Certainly, the oil and gas storage and transportation process itself also consumes a great deal of energy, which cannot promote production or create economic benefits. Under the concept of energy conservation, green environmental protection and low-carbon economic development, if the petroleum industry wants to reduce energy consumption and achieve sustainable development, it is necessary to practice energy-saving design for oil and gas storage and transportation systems in order to reduce energy consumption and improve the comprehensive economic benefits.

In this Special Issue, we aim to publish state-of-the-art research concerning sustainable energy-saving technologies in oil and gas storage and transportation, and to present and highlight the revolutionary paradigms and methodologies in this field.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
