Message from the Guest Editor

Currently, work is emerging that reconceptualizes how PPAZA agencies connect with visitors to encourage greater participation in wildlife conservation behaviors. For example, visitors' emotions are being explored to understand their role in behavior performance. Other research has investigated how advances in interpretation improve behavior adoption. Additionally, the role of technology in wildlife encounters, exhibit design, and visitor communication has revealed new avenues for visitors to adopt wildlife conservation behaviors. PPAZA agencies have also begun exploring how mobile technology can facilitate visitors performing behaviors off-site.

Visitor behaviors are a core component of wildlife conservation. As such, a robust discussion of understanding how to improve visitor participation in wildlife conservation behaviors has the potential to make meaningful and lasting contributions to the sustainability of wildlife. This call seeks original and relevant conceptual and empirical papers that expand the boundaries and illuminate new directions for pro-wildlife visitor behaviors

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
