Dr. Ana Cristina Gonçalves

MED—Mediterranean Institute for Agriculture, Environment and Development & CHANGE—Global Change and Sustainability Institute, Instituto de Investigação e Formação Avançada, Departamento de Engenharia Rural, Escola de Ciências e Tecnologia, Universidade de Évora, Apartado 94, 7002-544 Évora, Portugal

Deadline for manuscript submissions:

closed (1 July 2022)

Message from the Guest Editors

The effect of biomass production and bioenergy generation on the environment is a very complex subject, highly site-specific and dependent on, for example, the species, production regime, productivity, supply chain, and energy conversion technologies used. Often, multidisciplinary approaches are required to analyze the existent complex interrelations and integrate different perspectives. The link between bioenergy and biodiversity is being investigated more and more. In the last two decades, the number of research papers that focus on bioenergy and biodiversity has been steadily increasing, but further research is needed to determine the proper balances between bioenergy production and biodiversity conservation in different contexts. In this Special Issue, we would like to publish state-of-the-art studies on the link between bioenergy and biodiversity. We aim at publishing works that have an integrated and multidisciplinary approach to the topic.

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, AGRIS, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q1 (Geography, Planning and Development)
