Message from the Guest Editors

Recently, plant biotechnology has aroused widespread interest and attention in the scientific community towards realizing sustainable agriculture. This Special Issue will also focus on research related to plant biotechnology (e.g., novel phytoremediation technology and mechanisms, insights into plant–microbe–soil interactions, sustainable agricultural management strategies, rhizospheric modifications and engineering, and the role of plant-growth-promoting rhizobacteria in sustainable crop production).

This Special Issue in the journal Sustainability will aim to gather a collection of high-quality works on sustainable agro-ecosystems through supporting crop production under polluted environments using advanced plant biotechnology.

We are pleased to welcome original and technical articles, reviews, short communications, and meta-analyses pertaining to the following keywords.

Keywords

- sustainable agriculture
- biotechnology
- phytoremediation
- rhizospheric engineering
- soil remediation

an Open Access Journal by MDPI

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE](#) and [SSCI \(Web of Science\)](#), [GEOBASE](#), [GeoRef](#), [Inspec](#), [RePEc](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
